METHOD AND SYSTEM FOR DETECTION OF

INTEGRITY CONSTRAINT VIOLATIONS

5

ABSTRACT OF THE DISCLOSURE

A system (and method) of detecting an error in a database interaction,

includes providing information about at least one of at least first and second

10   software systems, and a mapping between at least a portion of said at least first

and second software systems; and examining said at least one of said first and

second software systems and said mapping to determine an error in an

interaction between said at least first and second software systems.
